NOTE: A considerable repetition of titles will be observed in this Index, since many articles have been noted for reference purposes under more than one topical heading. Articles for which no authorship or source is given were for the most part contributed by staff members of the Canadian Welfare Council (formerly the Canadian Council on Child and Family Welfare) whose initials have usually been appended. Brackets have been placed around an indicated source of an article to denote that the article is not an exact reproduction of the original statement mentioned, but that the subject matter of the article has been drawn mainly from that source.

## GENERAL
